

ISMSE Call for Papers

The topics of interest are included below, but not limited to:

- 01) Composites
- 02) Nano-Materials
- 03) Metal Alloys
- 04) Building Materials
- 05) Biomaterials
- 06) Chemical Materials
- 07) Material Properties, Characterization and Applications
- 08) Surface Engineering/Coating Technology
- 09) Machining/Materials forming
- 10) Nontraditional manufacturing
- 11) Materials Processing Technology
- 12) Mechanical Products Design, Mechanical Structures
- 13) Mechanical Strength and Reliability
- 14) CAD, CAM, CAE, Computer Modeling and Simulation
- 15) Production Planning and Scheduling
- 16) Simulation, Testing, Diagnosis, and Control in Manufacturing
- 17) Mechanical Vibration and Noise
- 18) Mechatronics, Industrial Robotics, Automation and Control
- 19) Engineering Optimization in Manufacturing
- 20) Thermal in Manufacturing
- 21) Advanced Numerical Control (NC) Technologies and Equipments
- 22) Engineering Equipments and Manufacturing
